

Carbon Footprint Ltd certifies that

358 grams of CO₂e

are released during the entire life of a Retap 500 ml bottle (this includes raw materials extraction, processing and transport, as well as product manufacturing, distribution, usage and disposal)

and that

30.2 kilograms of CO₂e

are saved every year when using a 500 ml Retap bottle instead of a 500 ml PET bottle

26 March 2014

**John Buckley, Managing Director,
Carbon Footprint Ltd**

The assessment was carried out in line with the requirements of the Carbon Footprint Standard. For more information on the Carbon Footprint Standard please see www.carbonfootprint.com
